

β -NMN **Premium**

Excipient free, 500 mg/capsule

NMN has recently received much attention as an ingredient for beauty care and anti-aging. This product contains 500 mg of NMN per capsule, which is sufficient as a daily dose. (Purity level 99.9%). Additionally, gastric-acid resistant capsules are used to prevent degradation of NMN, and NMN is absorbed in the intestine intact. This is the only NMN product completely free from excipients.

Recommended for use:

Individuals anxious about skin conditions and aging, those looking for excipient free product, those looking for high quality and high purity product, those who want to avoid taking multiple capsules daily, those conscious about cost-performance, etc.

Daily dose and use method

1 capsule daily. It can be taken any time irrespective of meal (acid-resistant capsule used)

There is no restriction for a treatment period. In general, it takes 3 months before you feel changes. There is no interactions with other drugs and supplements.

Safety

Safety of NMN is well demonstrated, and NMN is classified as "GRAS." Accordingly, it can safely be used for those with underlying disorders and elderly people.
